

# **MANAGING & LEADING CHANGE**

## **The Proactive Approach Out in Front of the Change**

This seminar incorporates the latest Change Management research on both organizational and personal changes post Covid-19. It uses a variety of sources including Harvard Business School, MIT/Sloan Management, and the work of John Kotter, author of Leading Change (updated in 2020). It covers the eight-step process of Change Management and Accelerating Change in all types of organizations. It will teach you how to assess and take bold steps to create a sense of urgency; generate short-term wins and remove barriers; and institute and sustain change.
